

How to Add Players To Roster

1. Players need to be added to 'Player Pool' on the left on the screen (players over 13 will require email address)
 - On the upper right corner select 'Add Player'
 - Then select 'Adding player info'
 - Choose either 'First team player' or 'Guest Player'
 - Select option 'Standard Add' and input player info and select 'Next'
2. Once added to player pool select 'Events' and select the event you are rostering them for
3. Select 'Player Check-in'
4. Submit the players you would like to roster for the event (once you submit, the tournament director will need to approve before they can be added to the roster.
5. Once the players have been approved select 'Roster' and then 'Print Event Roster' in order to view and download. After downloading the roster, upload it on 'Official Roster' under 'Player check-in'
